Subject: Report of Day-9 (24.12.2025) on celebration 'Swachhta Pakhwada' by ICAR-IIWM, Bhubaneswar -reg

On Day-9 (i.e., 24.12.2025) of *Swachhta Pakhwada*, an essay competition on 'Swachha Bharat Abhiyan- Impact on Health & Environment' was organized at SAI International School, Chandrasekharpur, Bhubaneswar. Thirty-nine(39) +2 standard students with science and humanities background participated in the contest. After the contest, scientists of ICAR-IIWM had an interaction with the participating students on 'how to become responsive to swachhta and environmental needs of generations' in which issues ranging from deteriorating environment and current government action plan and individual efforts in protecting our environment were discussed. The curiosity amongst the students was clearly visible during the interaction. The winners of both the events will be felicitated during the Valedictory Function. The programme was organized by IIWM team in coordination with Smt. Jayshree Routray, teacher, SAI International School. Some of the action photographs of Day-9 (24.12.2025) are presented below.
